

*Infinity's architectural aesthetic is a natural style choice for the urban environment. Through quality manufacturing and design integrity, Infinity yields both the performance and appearance to meet the needs of municipalities and park districts when planning public spaces. Designed as a system, Infinity provides multiple configurations and installation options.*

Seats and benches are available in standard lengths of 48", 60", 72", and 96". Joined benches have a center support. Joined seats have a center arm integral to the center support. Custom lengths are available.

### Infinity Seat

- Available only with arms
- Continuous seat and back surface
- Proportioned for sitting comfort
- Waterfall edges protect users
- Alternate base designs
- All aluminum structural components
- Seats can be linked end to end

Specify base type when selecting Infinity Seats and Benches. Choose X-Base surface mount, Y-Base surface or embedded mount. Aggregate columns or other custom mountings are available as special order.

### Infinity Bench

- Continuous seat surface
- Proportioned height for sitting comfort
- Waterfall edges protect users
- Alternate base designs available
- All aluminum structural components
- Seats can be linked end to end
- Available with sleep stoppers

Trash bins are available in two sizes with domed or flat cover or fully open top. Domed covers have HDPE insert discs that shape the trash opening for sorting recycled materials. Cast aluminum structural parts reflect line details.

### Infinity Recycling Bin

- HDPE inserts customize opening
- Cast cover with keylock
- Plastic liner is required
- Surface mount, casters or glides
- 33 and 40 gallon capacity - top fill only
- Recycling clusters available
- 16" deep planter/caster or glides available
- Planter uses same bin frames and slats
- Open top, requires pot or liner

### Infinity Plaza Table *New! (Available 2008)*

- Surface or embedded mount
- Table top slats are 2.5x3.5 HDPE profiles
- Waterfall seat edges protect users
- Steel structural components
- Standard size is 38" square
- Custom sizes available
- Optional ADA version (3 seats)

RecycleDesign™ is a registered trademark for site amenities manufactured and marketed worldwide. TRIMAX™ HDPE is a proprietary branded compound used exclusively for the extruded planks used in RecycleDesign™ products.

TRIMAX™ Planks are made of recycled, high density polyethylene lumber. The product is composed of 100% recycled HDPE, derived from purified milk bottle waste, combined with UV-inhibited pigment systems as well as other process additives. TRIMAX™ HDPE lumber is made from a single, purified polymer and is manufactured to consistent, reproducible standards.

TRIMAX™ HDPE is very resistant to moisture and is warranted not to rot, splinter, crack or peel. Waterproofing or staining is neither required nor recommended.

Powdercoat product finishing systems used with RecycleDesign™ products are 100% solids and contain no volatile organic compounds. The Powdercoat resin system is polyester, a weatherable and durable material suited for exterior use.
